

E' stato pubblicato il rapporto Eurydice ([National Student Fee and Support Systems in European Higher Education 2015/16](#)). Eurydice – Facts and Figure) che fotografa il panorama di tasse universitarie e forme di supporto agli studenti in Europa. Il nostro Paese resta al terzo posto come importi medi delle tasse, dopo Inghilterra e Paesi Bassi, e solo l'8% degli studenti ha diritto a una borsa di studio. I due grafici seguenti (fig. 3 e 5) illustrano bene la situazione.
